

Aalto University School of Electrical Engineering (Espoo, Finland) invites applications for:

TENURE TRACK OR TENURED POSITION IN SPEECH AND LANGUAGE PROCESSING
which can be filled on any level from assistant professor to tenured professor

Aalto University is a new university with over a century of experience. Created from a high-profile merger between three leading universities in Finland – the Helsinki School of Economics, the Helsinki University of Technology and the University of Art and Design Helsinki – Aalto University opens up new possibilities for strong multi-disciplinary education and research. The university's ambitious goal is to rank among the top universities in the world in its areas of specialization. At Aalto there are 20,000 students with around 75,000 alumni. We have a staff of 4,500 including 300 professors.

Aalto University School of Electrical Engineering invites applications for: **TENURE TRACK OR TENURED POSITION IN SPEECH AND LANGUAGE PROCESSING** which can be filled on any level from assistant professor to tenured professor. The above mentioned position is located in the Department of Signal Processing and Acoustics, see:

<http://spa.tkk.fi/en/>

The tenure track is open to talented individuals who have excellent potential for a scientific career. On the basis of their experience and competence, applicants will be placed on any of the three levels of the tenure track system: Assistant Professor (1st or 2nd term), Associate Professor or Full Professor. The candidates for the first-mentioned level are appointed for a fixed term, while the candidates for Associate Professor positions are appointed either permanently or for a fixed term. The full professor positions are permanent positions.

In the present call, the Department is seeking to hire highly qualified individuals for its most recent tenure track position whose study area is defined as Speech and Language Processing. The candidates should provide world class competence in speech and language processing complementing the present strong focus areas of the Department's research and teaching. All qualified candidates in speech and language processing or closely related fields are encouraged to apply.

The dead line of the applications is October 31, 2011. Application call and instruction are available here:
