
Telecom Paris, a founding member of Institut Polytechnique de Paris, a member of Institut Mines-Telecom (IMT), and one of the top French Engineering schools is opening an **Assistant/Associate Professor position in Machine Learning (tenure)**.

The position is within the Machine Learning, Statistics & Signal Processing research group (S2A) and is open to a wide variety of research topics around the team expertise, which covers both theoretical and methodological works in Machine Learning, at the interface of computational/mathematical statistics, stochastic modelling, time-series analysis, signal processing and optimization. Though, expertise in one of the following subjects is at least desired:

- trustworthy machine learning (reliable, robust, fair, explainable)
- online learning, reinforcement learning
- structured prediction / multi-task
- large scale learning, frugal learning
- time-series, spatio-temporal data

More information is given at :

<https://institutminestelem.com/en/o/maitre-de-conferences-en-apprentissage-statistique-fh-a-telecom-paris-cdi>

Additional information

In the context of the Institut Polytechnique de Paris, the activities in Data Science and AI of the S2A team benefit from the center Hi!Paris (<https://www.hi-paris.fr>), offering seminars, workshops and fundings through calls for project

The position

- Permanent position
- 19 place Marguerite Perey - 91120 Palaiseau - France

Application

Application must be performed through one of the websites

(French) : <https://institutminestelem.com/o/maitre-de-conferences-en-apprentissage-statistique-fh-a-telecom-paris-cdi>

(English) : <https://institutminestelem.com/en/o/maitre-de-conferences-en-apprentissage-statistique-fh-a-telecom-paris-cdi>

Important dates

- September 24, 2021 : application deadline
- October 25-26 and November 4-5: interviews (by visio-conference eventually)

Winter 2021/22: beginning
