

Call: A public selection procedure is called, based on qualifications and interview, for the assignment of n. 1 research fellowship grant for collaboration in research activities

Project main aim: Multidisciplinary Research on AI for Health.

Location: Kore University of Enna - Enna (Sicily), Italy

Funding Programme: Research Projects of National Relevance - PRIN 2017

Description: The project focuses on idiopathic Parkinson's disease dysarthric speech, produced by speakers of two varieties of Italian that show different segmental (consonantal, vocalic) and prosodic characteristics. The project as a whole aims at: identifying phonetic features that impact on speech intelligibility and accuracy, separating variability due to dysarthria from features due to sociolinguistic variation, and developing perspectives and tools for clinical practice that take variation into account.

Duration: 12 months

Amount: Gross amount for 12 months is equal to € 30.000,00
